Re: Upcoming Tuition Changes and New Program Offerings

We are pleased to say that in the past year, we have had a 96% retention rate in our post-secondary program. National average for colleges and universities is around 85%. So that tells us something here at Credenda, that our students are committed to the education they are receiving from us, and are very successful.

We currently have the following programs being offered at Credenda:

- Early Learning Childcare Certificate & Diploma
- Education Assistant
- Office Administration Certificate
- Library Technician Program

We are adding the Business Administration Certificate and Diploma starting the fall of 2010. We are excited about the addition of this new program.

In addition, we are exploring ways to add a Bachelor program for students to block transfer a certificate or diploma that they have received through Credenda. We are very excited about these possibilities.

Since we began offering college programming, we have not increased the tuition rate. We certainly want to be affordable for students, but we have not even raised tuition in keeping with inflation rates. Beginning in the fall of 2010, we will be raising the tuition rate to \$525 per 45 hour – 3 credit course. This is very much in keeping with other post-secondary institutions tuition rates, as we want to remain comparative and competitive.

We look forward to continuing to serve you with our online distance education system. We will continue to strive in bringing the highest quality education to our students. If you require further information, please contact us at (866) 910-2847.

Credenda...innovatively creating an engaging, meaningful, safe online learning community with real people working together to encourage growth that prepares individuals for a future of lifelong learning.
